

## COLUMBIA RIVER TREATY FISHING RIGHTS

Since time immemorial the Columbia River and its tributaries were viewed by the Columbia River Basin tribes as "a great table where all the Indians came to partake."<sup>1</sup> More than a century after the Confederated Tribes of the Umatilla Indian Reservation, the Confederated Tribes of the Warm Springs Reservation of Oregon, the Confederated Tribes and Bands of the Yakima Indian Nation, and the Nez Perce Tribe signed the treaties which created their reservations, the tribes' place at the table has been subordinated to energy production and other non-Indian water development. Today, the Columbia River treaty tribes struggle for a very small fraction of their reserved fishing rights. The treaties -- the supreme law of the land under the United States Constitution -- promised more.<sup>2</sup>

The Columbia River treaty tribes reserved the right to fish at all usual and accustomed fishing stations "in common with" the citizens of the United States. The fishing right means more than the right of Indians to hang a net in an empty river.<sup>3</sup> However, Columbia River runs of sockeye, coho, and spring, summer, and fall chinook have declined drastically since

---

<sup>1</sup> Seufert Brothers Co. v. United States, 249 U.S. 194, 197 (1919).

<sup>2</sup> See U.S. Const. Art. VI, cl. 2 *construed in* United States v. Washington, F. Supp. 312, 330 (W.D. Wash. 1974). Pursuant to the United States Constitution, the treaties with the tribes made under the authority of the United States "shall be the supreme Law of the Land; and Judges in every State shall be bound thereby . . ." *Id.*

<sup>3</sup> Washington v. Washington State Commercial Passenger Fishing Vessel Association,, 443 U.S. 658, 679 (1979).

the mid-1800's.<sup>4</sup> Where once the Columbia produced annual runs of at least 10-16 million salmon, its runs are now diminished to tens of thousands. The devastation of fish runs is inimical to Indian treaties and the United States' trust responsibilities to tribes.

The United States stands in a trust or fiduciary relationship to the Columbia River treaty tribes.<sup>5</sup> The trust relationship is a legal doctrine which embodies the many promises made by the federal government to Indian tribes. The promises include but are not limited to 1) the protection of tribal sovereignty and self-government; 2) the protection of tribes from state

---

<sup>4</sup> A run is the annual return of adult salmon and steelhead trout. Total runs include those fish that are harvested prior to reaching any dams. *See Generally*, U.S. COMPTROLLER GENERAL, HYDROELECTRIC DAMS: ISSUES SURROUNDING COLUMBIA RIVER BASIN JUVENILE FISH BYPASSES, H.R. Rep. No. 90-180, at 8 (1990).

interference; and 3) the protection of tribal people and tribal natural resources. The trust doctrine governs all aspects of federal government actions which in any way affect the tribes.

The trust doctrine sets limits on the exercise of federal power over Indian people.<sup>6</sup> Treaty language, which often speaks in terms of "securing" to tribes land and resources while promising to promote and improve tribal well-being, exemplifies the constraints on the exercise of federal power over Indian affairs.<sup>7</sup> Treaties made with Indian tribes (and the fact that treaties were made at all) are proof of the federal government's recognition of tribal sovereignty.<sup>8</sup>

Federal trust obligations are analogous to common law trust principles.<sup>9</sup> Under common law trust principles, the trustee has a duty to administer the trust property solely in the interest of the beneficiary.<sup>10</sup> The Supreme Court has stated that the federal trustee has

---

<sup>6</sup> AMERICAN INDIAN POLICY REVIEW COMMISSION, FINAL REPORT at 4-5 May 17, 1977.

<sup>7</sup> *See e.g.*, Treaty with the Tribes of Middle Oregon, June 25, 1855.

That the exclusive right of taking fish in the streams running through and bordering said reservation is hereby secured to said Indians; and at all other usual and accustomed stations, in common with citizens of the United States, and of erecting suitable houses for curing the same; also the privilege of hunting, gathering roots and berries, and pasturing their stock on unclaimed lands, in common with citizens, is secured to them.

<sup>9</sup> AMERICAN INDIAN POLICY REVIEW COMMISSION, FINAL REPORT 127 May 17, 1977.

<sup>10</sup> *See Manchester Band of Pomo Indians v. United States*, 363 F.Supp. 1238, 1245 (N.D. Cal. 1973)(citing Restatement (Second) of Trusts § 170(1) (1959)).

the "duty in administering the trust to exercise such care and skill as a man of ordinary prudence would exercise in dealing with his own property."<sup>11</sup> The United States has a duty to account to the tribes for its performance of treaty obligations.<sup>12</sup> If the federal trustee is negligent in its dealings with the tribes' property, it is liable for any losses.<sup>13</sup>

Canons of construction unique to Federal Indian law are manifestations of the federal government's trust relationship with Indian tribes. Courts rely on the canons of construction when interpreting treaties, executive orders, and statutes pertaining to tribes and in reviewing federal actions affecting Indian people. The following is a summary of the primary canons of Federal Indian law:

1. Indian treaties must be interpreted so as to promote their central purposes;<sup>14</sup>
2. Treaties are to be interpreted as the Indians themselves would have understood them;<sup>15</sup>

3. Indian treaties are to be liberally construed in favor of the Indians;<sup>16</sup>
4. Ambiguous expressions are to be resolved in favor of the Indians;<sup>17</sup> and

---

Tulee v. Washington, 315 U.S. 681, 684 (1942); Jones v. Meehan, 175 U.S. 1, 11 (1899); Worcester v. Georgia, 31 U.S. (6 Pet.) 515 (1832); Seufert Bros. v. United States, 249 U.S. 194, 198 (1919); United States v. Winans, 198 U.S. 371 (1905). *See generally* FELIX S. COHEN, FEDERAL INDIAN LAW 221-225 (1982).

<sup>16</sup> Or phrased slightly differently, treaties must be read, not in isolation but in light of the common notions of the day and the assumptions of those who drafted them. Passenger Fishing Vessel Association, 443 U.S. at 676; Antoine v. Washington, 420 U.S. 194, 199 (1975); Choctaw Nation v. United States, 318 U.S. 423 (1943); Tulee v. Washington, 315 U.S. 681, 684 (1942); Alaska Pacific Fisheries v. United States, 248 U.S. 78, 89 (1918).

<sup>17</sup> McClanahan v. Arizona State Tax Commission, 411 U.S. 164 (1973); Carpenter v. Shaw, 280 U.S. 363 (1930); Fleming v. McCustain, 215 U.S. 56, 59-60 (1909); Winters v. United States, 207 U.S. 564 (1905). In *Winters* the Court stated:

By a rule of interpretation of agreements and treaties with the Indians, ambiguities occurring will be resolved from the standpoint of the Indians. And the rule should certainly be applied to determining between two inferences, one of which would support the purpose of the agreement and the other impair or defeat it. On account of their relation to the government, it cannot be supposed that the Indians intended to exclude by formal words every inference which might militate against and defeat the declared purpose of themselves and the government, even it could be supposed that they had the foresight to foresee the "double sense" which might some time be urged against them. 207 U.S. at 576-577.

5. A treaty is not a grant of rights to the Indians but a reservation of those rights not granted away.<sup>18</sup>

The canons of construction reflect judicial recognition of the federal government's obligation to protect and enhance tribal rights. Similarly, the canons provide guidance to federal agencies involved in the co-management of the Columbia River tribes' treaty- fishery and water resources.

#### APPLICATION OF TRUST PRINCIPLES

The federal government and its agencies are subject to the United States' fiduciary responsibilities to tribes.<sup>19</sup> All federal actions and the implementation of federal statutory schemes affecting Indian people, land or resources must be "judged by the most exacting fiduciary standards."<sup>20</sup> The United States' trust obligations extend to all federal agencies that manage fisheries, water projects, hydroprojects, and federal lands.<sup>21</sup>

---

<sup>18</sup> United States v. Winans, 198 U.S. 371, 381 (1905).

<sup>19</sup> See e.g., Pyramid Lake Paiute Tribe of Indians v. United States Department of the Navy, 898 F.2d 1401, 1411 (9th Cir. 1991); Covello Indian Community v. FERC, 895 F.2d 581, 584 (9th Cir. 1990); Nance v. EPA, 645 F.2d 701, 711 (9th Cir. 1981), *cert. denied*, 454 U.S. 1081 (1981).

<sup>20</sup> Seminole Nation v. United States, 316 U.S. 286, 296-97 (1942). See also United States v. Mason, 412 U.S. 391, 398 (1973).

<sup>21</sup> See e.g., Nance v. Environmental Protection Agency, 645 F.2d 701 (9th Cir. 1981); Covello Indian Community v. Federal Energy Regulatory Commission, 895 F.2d 581 (9th Cir. 1990); Pyramid Lake Paiute Tribe of Indians v. United States Department of

One of the more significant cases applying the trust doctrine to the management of tribal fishery and water resources is *Pyramid Lake Paiute Tribe v. Morton*.<sup>22</sup> In *Pyramid Lake*, the Paiute Tribe sought and obtained a federal court order enjoining diversions from the Truckee River upstream from Pyramid Lake, a desert lake located totally within the Paiute's reservation and fed only by the Truckee River.<sup>23</sup> The upstream diversions threatened the lake's quality and the upstream spawning of two species of fish upon which the tribe historically depended.

The Paiute Tribe's challenge arose in response to the Secretary of Interior's proposed regulation which called for massive diversions from the Truckee River. The court found that the Secretary's self-described "judgment call" regarding the quantity of water to be diverted was an abuse of discretion. The court stated that the Secretary:

misconceived the legal requirements that should have governed his action. A

---

Navy, 898 F.2d 1410 (9th Cir. 1990); *Assiniboine & Sioux Tribes v. Board of Oil and Gas Conservation*, 792 F.2d 782 (9th Cir. 1986); *Cheyenne-Arapaho Tribes of Oklahoma v. United States*, 512 F.2d 1390 (Ct.Cl. 1975).

<sup>22</sup> 354 F.Supp. 252 (D.D.C. 1972).

<sup>23</sup> At issue was the Secretary of Interior's "judgment call" in recommending a regulation allowing 378,000 acre feet of water to be diverted from the Truckee River for irrigation purposes. If not diverted, the water would flow into Pyramid Lake, located on the tribe's reservation and historically the tribe's principle source of livelihood. The extensive irrigation diversions severely impacted the lahontan cutthroat trout and cui-ui, fish which tribal members had historically depended on. These fish were placed on the federal threatened and endangered lists in 1975 and 1967 respectively. *See generally* *Carson-Truckee Water Conservancy District v. Watt*, 549 F.Supp 704 (1982).

'judgment call' was simply not legally permissible.... The burden rested on the Secretary to justify any diversion of water from the Tribe with precision. It was not his function to attempt an accommodation.<sup>24</sup>

The court held that the Secretary of Interior violated his trust obligation to protect the Paiute Tribe's fishery.<sup>25</sup> Judge Gesell further held that a contract between the Secretary of the Interior and the Secretary of Agriculture that governed reservoir management could not be advanced as an obstacle to maintaining fish flows.<sup>26</sup> *Pyramid Lake* mandates that federal

---

<sup>24</sup> 354 F.Supp. at 256.

The Secretary was obliged to formulate a closely developed regulation that would preserve water for the Tribe. He was further obliged to assert his statutory and contractual authority to the fullest extent possible to accomplish this result.... The Secretary's action is therefore doubly defective and irrational because it fails to demonstrate an adequate recognition of his fiduciary duty to the Tribe. This also is an abuse of discretion and not in accordance with law. *Id.* at 256-57.

<sup>25</sup> *Id.*

In order to fulfill his fiduciary duty, the Secretary must insure, to the extent of his power, that all water not obligated by court decree or contract with the District goes to Pyramid Lake. The United States, acting through the Secretary of the Interior, 'has charged itself with moral obligations of the highest responsibility and trust. Its conduct, as disclosed in the acts of those who represent it in dealings with the Indians, should therefore be judged by the most exacting fiduciary standards.' (citing *Seminole Nation v. United States*, 316 U.S. 286, 297 (1942)).

<sup>26</sup> *Id.* at 258. "The Secretary's trust obligations to the Tribe are paramount in this respect...."

agencies both recognize and act in accordance with their fiduciary obligation to tribes.<sup>27</sup>

The obligations created by the trust doctrine extend to federal actions taken off reservation which impact life and resources on reservation. In *Northern Cheyenne Tribe*,<sup>28</sup> the federal district court of Montana declared that a "federal agency's trust obligation to a tribe extends to actions it takes off a reservation that uniquely impact tribal members or property on a reservation."<sup>29</sup> Not even the nation's need for energy development justified disregard of the federal government's fiduciary duty.<sup>30</sup>

The trust doctrine permeates every aspect of the federal government's relations with Indian tribes. The federal government and its implementing agencies owe a duty to not only recognize the impacts of their activities on the tribes, but also a duty to safeguard natural resources which are of crucial importance to tribal self-government and prosperity. In addition,

---

<sup>27</sup> *Id.* at 257.

<sup>28</sup> *Northern Cheyenne Tribe v. Hodel*, 12 ILR 3065 (D.Mont., May 28, 1985) *aff'd on other grounds* 842 F.2d 224 (9th Cir. 1988).

<sup>29</sup> *Id.* at 3071.

<sup>30</sup> The court declared that:

The Secretary's conflicting responsibilities and federal actions taken in the 'national interest,' however, do not relieve him of his trust obligations. To the contrary, identifying and fulfilling the trust responsibility is even more important in situations such as the present case where an agency's conflicting goals and responsibilities combined with political pressure asserted by non-Indians can lead federal agencies to compromise or ignore Indian rights. *Id.*

the trust responsibility imposes an affirmative duty upon a federal agency to use its particular expertise to protect tribal resources.<sup>31</sup>

## THE RIGHT TO TAKE FISH

The right to take fish is integral to the Columbia River tribes' subsistence, culture, religion and economy.<sup>32</sup> The Supreme Court recognized the importance of fish to the tribes early in the development of treaty interpretation:

---

<sup>31</sup> Mitchell II, 463 U.S. 206 (1983).

<sup>32</sup> NORTHWEST POWER PLANNING COUNCIL, COMPILATION OF INFORMATION ON SALMON AND STEELHEAD LOSSES IN THE COLUMBIA RIVER BASIN (March 1986).

A significant dependence upon salmon is the single feature that most of the aboriginal groups in the Columbia River Basin shared.... inter-group trade made salmon available to virtually all inhabitants of the Columbia Basin....The annual salmon runs were accompanied by religious rituals and ceremonial rites such as the First Salmon Ceremony, believed to ensure the continued return of the salmon. The salmon also played an important role in Indian folklore, art, music, and mythology. The timing and distribution of the runs were major determinants of yearly patterns of group movement, the organization of households, the division of labor, the size of local groups, and the nature of social interactions among groups. Although the cultural value of the salmon to the Columbia Basin Indians cannot be quantified or adequately characterized, undoubtedly much of what is distinctive about the aboriginal cultures can be attributed to their relationship to the salmon. *Id.* at 29.

The right to resort to...fishing places...was a part of larger rights possessed by the Indians, upon the exercise of which there was not a shadow of impediment, and which were not much less necessary to the existence of the Indians than the atmosphere they breathed.<sup>33</sup>

In 1855, separate treaties with the Confederated Tribes of the Umatilla Indian Reservation, the Confederated Tribes of the Warm Springs Reservation of Oregon, the Confederated Tribes and Bands of the Yakama Nation, and the Nez Perce Tribe were negotiated with representatives of the United States government.<sup>34</sup> Retaining the right to continue traditional fishing practices was a primary objective of the Columbia River tribes during treaty negotiations.<sup>35</sup> Each treaty contained a substantially identical provision reserving to the tribes the right take "fish at all usual and accustomed places in common with citizens of the United States."<sup>36</sup> The fishing clause is the heart of the Columbia River tribes' treaties.<sup>37</sup>

The Columbia River tribes' treaty fishing rights were explicitly reserved. They are property rights and thus, if abrogated, require compensation under the Fifth Amendment of the

United States Constitution.<sup>38</sup> Fishing rights are the communal property of the tribes.<sup>39</sup> The Columbia River tribes each reserved the right to take fish (1) within their respective reservations,<sup>40</sup> (2) at all usual and accustomed fishing sites on lands ceded to the United States government,<sup>41</sup> and (3) at all usual and accustomed fishing sites outside the reservation or ceded areas.<sup>42</sup>

## OFF-RESERVATION TREATY FISHING RIGHTS

In negotiating their treaties, the Columbia River tribes reserved the right to access ceded aboriginal lands for a variety of reasons including the right to fish at their "usual and accustomed places."<sup>43</sup> The treaty right to fish off-reservation preceded the statehoods of

<sup>43</sup> *See, e.g.*, Treaty with the Yakima Tribe, June 9, 1855, 12 Stat. 951, Art. 3

Oregon, Washington and Idaho and was not subordinated to state law.<sup>44</sup> A state may not regulate treaty off-reservation fishing activity unless it can first demonstrate that the regulation is necessary for conservation of fish.<sup>45</sup> Furthermore, states may not restrict treaty fishing in a manner which favors non-treaty fishing or discriminates against Indians.<sup>46</sup>

---

The exclusive right of taking fish in all the streams, where running through or bordering said reservation, is further secured to said confederated tribes and bands of Indians, as also the right of taking fish at all usual and accustomed places, in common with the citizens of the Territory, and of erecting temporary buildings for curing them; together with the privilege of hunting, gathering roots and berries, and pasturing their horses and cattle upon open and unclaimed land.

<sup>44</sup> United States v. Winans, 198 U.S. 371, 383 (1905)

By the Constitution, as is now well settled, the United States, having rightfully acquired the Territories, and being the only Government which can impose laws upon them, have the entire dominion and sovereignty, national and municipal, Federal and State, over all the Territories, so long as they remain in a territorial condition.

*See also* Sohappy v. Smith, 302 F.Supp. 899, 908 (D.Or. 1969); Holcomb v. Confederated Tribes of Umatilla Indian Reservation, 382 F.2d 1013, 1014 (9th Cir. 1967).

<sup>45</sup> Sohappy v. Smith, 302 F.Supp. 899, 907 (D.Or. 1969).

<sup>46</sup> Department of Game of Washington v. Puyallup Tribe, 414 U.S. 43 (1973)[hereinafter Puyallup II]; Maison v. Confederated Tribes of Umatilla Indian Reservation, 314 F.2d 169 (9th Cir. 1963); Sohappy v. Smith, 302 F.Supp. 899 (D.Or. 1969).

In the seminal case *United States v. Winans*, the Supreme Court confirmed that the treaties made between Indians and the federal government preserved the right to fish at all usual and accustomed places free from interference.<sup>47</sup> In *Winans*, a non-Indian obtained title from the state of Washington to lands bordering the Columbia River and including a usual and accustomed Yakima Nation fishing site.<sup>48</sup> The non-Indian denied a Yakima Indian access to his traditional fishing site by stationing a large fish wheel at the site. In a landmark decision, the Supreme Court held that a servitude existed providing a right of access to Yakima tribal members across the non-Indian's land.<sup>49</sup> This servitude, part of the tribe's immemorial right, superseded the non-Indian's fee simple title to the land.<sup>50</sup> The reserved fishing right "was intended to be continuing as against the United States and its grantees as well as against the state and its grantees."<sup>51</sup>

*Winans'* most significant contribution to Federal Indian law lies in its articulation of the reserved rights doctrine: "the treaty was not a grant of rights to the Indians, but a grant of rights from them -- a reservation of those not granted."<sup>52</sup> *Winans* stands as an explicit recognition that Columbia River tribes retain an aboriginal fishing right that has resided with these tribes since time immemorial.<sup>53</sup> The *Winans* reserved rights doctrine is the law today.<sup>54</sup>

## STANDARDS OF FISH ALLOCATION AND CONSERVATION

The Columbia River tribes continue to rely on their right take fish from the Columbia River system for commercial, ceremonial and subsistence purposes. Historically, tribal groups managed and regulated fishing along stretches of the river. Traditional authority groups evolved into regional committees. For example, the Celilo Fish Committee presided over fishing between Celilo Falls and John Day Falls. The Celilo Committee determined who could fish when and had the authority to punish violators.<sup>55</sup>

With the development of non-Indian commercial fishing at the end of the 19th Century, the tribal fisheries faced unprecedented competition. Fishery habitat was simultaneously impacted by non-Indian activities including hydroelectric development, logging, mining, grazing, irrigation, and pollution.<sup>56</sup> Compounding the threat posed by over-harvesting and environmental degradation was the failure of state fishing regulations to accommodate tribal

needs or to recognize tribal authority over fishing at usual and accustomed places. Operating under the Columbia River Compact of 1918,<sup>57</sup> Oregon and Washington set the location, time, and harvest ceilings for commercial fisheries in the Columbia River. The states allowed most of the harvestable salmon to be taken by non-Indians.<sup>58</sup> The combination of the decline of the fishery resource and discriminatory state regulation made

#### CONSERVATION LIMIT ON TREATY FISHING RIGHTS

An early step in the definition of the Columbia River tribes' right to take fish occurred in 1963 when members of the Confederated Tribes of the Umatilla Indian Reservation sought declaratory relief from the state of Oregon's restrictions on tribal salmon and steelhead fishing on tributaries of the Columbia and Snake Rivers.<sup>59</sup> In *Maison*, the court held that the Umatilla's 1855 treaty reserved to them "those unimpeded fishing rights which their ancestors had long enjoyed before the treaty."<sup>60</sup> The right to take fish unimpeded was qualified only by the need to conserve the fishery resource.<sup>61</sup> In order to demonstrate the necessity of conservation, the state must show "that there is a need to limit the taking of fish ...[and]... that the particular regulation sought to be imposed is 'indispensable' to the accomplishment of the needed limitation."<sup>62</sup> The court further limited the state's authority to regulate treaty fishing

<sup>62</sup> *Id.*

rights by indicating that restrictions on treaty fishing were indispensable only where conservation could not be accomplished through alternative conservation measures.<sup>63</sup>

Also in 1963, the State of Washington filed suit seeking to confirm its regulatory authority over tribal fishing in Commencement Bay at the mouth of the Puyallup River.<sup>64</sup> In *Puyallup I* the Supreme Court found that the State may not regulate the actual treaty right to harvest fish but may regulate the manner of fishing, the size of the take, and similar matters in the interests of conservation, "provided the regulation meets appropriate standards and does not discriminate against the Indians."<sup>65</sup> The Supreme Court later provided further guidance concerning its finding in *Puyallup I*: The "appropriate standards" requirement means that the State must demonstrate that its regulation is a reasonable and necessary conservation measure, . . . and that its application to the Indians is necessary in the interest of conservation.<sup>66</sup>

---

<sup>63</sup> *Id.* at 173.

<sup>64</sup> *Puyallup Tribe v. Department of Game of Washington*, 391 U.S. 392 (1968) (*Puyallup I*).

<sup>65</sup> *Id.*

<sup>66</sup> *Antoine v. Washington*, 420 U.S. 194, 207 (1975) (citing *Puyallup I*, 391 U.S. at 398) (emphasis added). Subsequent to *Antoine*, the Ninth Circuit determined that the exercise of tribal rights may be regulated in order to maintain a reasonable "margin of safety" against extinction. *United States v. Oregon*, 718 F.2d 299, 305 (9th Cir. 1983). *See also* *United States v. Washington*, 384 F. Supp. 312, 342 (W. D. Wash. 1974) (regulation limited to preventing demonstrable harm to actual conservation of fish, with conservation referring to species perpetuation), *aff'd*, 520 F.2d 676 (9th Cir. 1975), *cert. denied*, 423 U.S. 1086 (1976), *reh'g denied*, 424 U.S. 978 (1976); *Sohappy v. Smith*, 302 F. Supp. 899, 908 (D.Or. 1969) (state can regulate only if existence of fish resource is imperiled).

The issues addressed by the *Antoine* Court concerning when it is appropriate for the government to regulate tribal treaty rights may be outlined as follows:

1. Is there a conservation need for the imposition of regulatory measures?
2. If so, do the proposed regulatory measures meet "appropriate standards?"
  - a. Are the regulatory measures a reasonable and necessary conservation measure?
  - b. Is the application of conservation measures to the Indians necessary in the interest of conservation?
3. If it is necessary to apply the regulatory measures to the exercise of tribal treaty rights, are they being applied in a discriminatory manner?

Point 2b in this outline is critical, because this is where the determination is made when and if regulation of tribal treaty hunting, fishing, and gathering activities is permitted. Several courts have addressed this point. The Ninth Circuit Court of Appeals stated the following:

Direct regulation of treaty Indian fishing in interests of conservation is permissible only after the state has proved unable to preserve a run by forbidding the catching of fish by other citizens under its ordinary police power jurisdiction.<sup>67</sup>

---

<sup>67</sup> *U.S. v. Washington*, 520 F.2d 676, 686 (9th Cir. 1975), *citing Antoine v.*

In other words, the courts have stated as part of the conservation necessity principle that the regulation of Indian treaty activities is only permissible if it is not possible to achieve the conservation measures by imposing restrictions on non-treaty activities that impact the treaty resource. The above scheme also demonstrates that the requirement that a regulatory measure be a "reasonable and necessary conservation measure" is only one of several prerequisites clearly set out in federal case law which must be met before the exercise of tribal treaty rights may be limited.

Although many cases have addressed attempted state regulation of tribal treaty rights, the legal principles apply equally to federal regulation. In *United States v. Bressette*<sup>68</sup> the court applied the "conservation necessity" principle articulated in the *Antoine/Puyallup* cases when it considered the application of the Migratory Bird Treaty Act (MBTA) to the treaty rights of the Chippewa Indian Tribe to sell migratory bird feathers.<sup>69</sup> Indeed, the federal government argued in this case that federal regulation pursuant to the MBTA met the requirements of *Puyallup*.<sup>70</sup>

More recently, a district court found that the "conservation necessity" principle is

---

<sup>68</sup> 761 F. Supp. 658 (D. Minn. 1991).

<sup>69</sup> *Id.* at 664.

<sup>70</sup> *Id.*

applicable to federal regulation of treaty rights.<sup>71</sup> Regarding the applicable standard which the Secretary must use to determine allocations to treaty and non-treaty fishers, the court held:

In formulating his allocation decisions, the Secretary must accord treaty fishers the opportunity to take 50% of the harvestable surplus of halibut in their usual and accustomed fishing grounds, and the harvestable surplus must be determined according to the conservation necessity principle.<sup>72</sup>

The court in *Makah v. Brown* noted that the federal defendants did not disagree with the application of the "conservation necessity" standard in principle. The court explicitly rejected the argument that "only state and not federal regulatory agencies are bound by the conservation necessity principle."<sup>73</sup>

Since rights granted pursuant to treaties are rights granted to the United States from the tribes and the tribes reserve all those rights not granted, treaty rights should be afforded the highest priority possible.<sup>74</sup> Further, treaties and other agreements made with Indians are to be broadly construed and ambiguities resolved in favor of the Indians.<sup>75</sup> The preservation of

treaty rights is the responsibility of the entire federal government.<sup>76</sup>

Acknowledgement that treaty rights are to receive the highest protection possible leads to the conclusion that non-treaty impacts on treaty resources must be minimized to permit the fulfillment of treaty promises. In a decision concerning state regulation of off-reservation treaty fishing rights, the court noted that it must be demonstrated that the required conservation cannot be achieved by restrictions on non-treaty citizens, or other less restrictive methods.<sup>77</sup> Further, "To regulate Indian fishermen first, to apply the same regulations to them as to non-treaty fishermen, is to render the treaty rights nugatory."<sup>78</sup> Finally, in *United States v. Washington*, the court stated:

If alternative means and methods of regulation and necessary conservation are available, the state cannot lawfully restrict the exercise of off-reservation treaty right fishing, even if the only alternatives are restriction of fishing by non-treaty

---

responsibility to see that the terms of the treaty are carried out, so far as possible . . . in a spirit which generously recognizes the full obligation of this nation to protect the interests of a dependent people." <sup>78</sup> *United States v. Michigan*, 505 F. Sup. 467, 474-75 (W.D. Mich. 1980) (citations omitted).

fishermen, either commercially or otherwise, to the full extent necessary for conservation of fish.<sup>79</sup>

Thus, in cases decided subsequent to *Puyallup* and *Antoine*, courts have demanded a specific finding of necessity to regulate the Indians. If adequate conservation may be effected by regulating other users with lesser rights, it is not permissible to regulate a tribe's exercise of its reserved hunting and fishing rights.<sup>80</sup> When a treaty right is implicated, the specific impact of Indian activities under a treaty must be examined separately from activities of non-Indians. It is not appropriate to lump Indians and non-Indians together in a general assessment.<sup>81</sup>

It is well-established that a key component of the tribes' right to take fish is their right to take fish at all their usual and accustomed fishing places.<sup>82</sup> Thus, the rules governing the exercise of the right to take fish apply equally to the right to take fish at all usual and accustomed fishing places.<sup>83</sup>

## TREATY RIGHT TO A FAIR SHARE

Federal district courts in Oregon and Washington assumed and retained continuing jurisdiction over two suits initiated in the wake of *Maison* and *Puyallup I*. In 1968, fourteen Yakima Tribal members filed suit to enjoin the state of Oregon's interference with their off-reservation fishing rights.<sup>84</sup> Judge Belloni held that the treaties gave the Columbia River tribes "an absolute right" to the fishery and thus to a "fair share of the fish produced by the Columbia River system."<sup>85</sup> Although the court recognized the conservation standard, the court held that treaty fishing rights should receive co-equal priority with conservation.<sup>86</sup> The court

Smith* litigation included: Richard Sohappy, Aleck Sohappy, David Sohappy, Myra Sohappy, Clara Sohappy, James Alexander, James Alexander, Jr., Leo Alexander, Clifford Alexander, Henry Alexander, Andrew Jackson, Roy Watlamet, Shirley McConville, and Clarence Tahkeal. This case was consolidated with *United States v. Oregon*, Civil No. 68-513 (1969) initiated by the United States as trustee of tribes against the state of Oregon).

<sup>85</sup> *Id.* at 911.

<sup>86</sup> *Id.*

In determining what is an 'appropriate' regulation one must consider the interests to be protected or objective to be served. In the case of regulations affecting Indian treaty fishing rights the protection of the treaty right to take fish at the Indian's usual and accustomed places must be an objective of the state's regulatory policy co-equal with the conservation of fish runs for other users.

further defined the state's responsibility toward the tribes, holding that "restrictions on the exercise of the treaty right must be expressed with such particularity that the Indian can know in advance of his actions precisely the extent of the restriction which the state" may legitimately impose for conservation purposes.<sup>87</sup>

In subsequent proceedings, the court determined that a "fair share" meant a 50-50 division of the harvest.<sup>88</sup> The Ninth Circuit, in *United States v. Washington*, confirmed that "fair share" means a 50-50 division of the harvestable number of fish that may be taken.<sup>89</sup>

<sup>87</sup> *Id.*

<sup>88</sup> *Sohappy v. Smith* No. 68-409 (D.Or. August 20, 1975) (Preliminary Injunction Order); *Sohappy v. Smith* No. 68-409 (D.Or. May 8, 1974) (Order Dissolving Temporary Restraining Order)

The Indian treaty fishermen are entitled to have the opportunity to take up to 50 percent of the spring Chinook run destined to reach the tribes' usual and accustomed grounds and stations. By "destined to reach the tribes' usual and accustomed grounds and stations," I am referring to that portion of the spring run which would, in the course of normal events, instinctively migrate to these places except for prior interception by non-treaty harvesters or other artificial factors. (emphasis added)

*See also* *United States v. Oregon*, No. 68-513 (D.Or. August 10, 1976) (Temporary Restraining Order).

<sup>89</sup> *United States v. Washington*, 384 F. Supp. 312, 343 (W.D. Wash. 1974), *aff'd* 520 F.2d 676 (9th Cir. 1975), *cert. denied*, 423 U.S. 1086 (1976)[hereinafter Phase I]. (In 1974, following *Phase I*, Washington intervened as defendant in *United States v. Oregon*.) *See* *United States v. Oregon*, 699 F.Supp. 1456, 1459 (D.Or. 1988).

Furthermore, the allocation percentage includes hatchery reared fish.<sup>90</sup> There are several reasons to include hatchery fish in the tribes allocation, including: (1) the lack of state ownership of the fish once released; (2) the lack of unjust enrichment of the tribes; (3) the fact that hatchery fish and natural fish are not distinguished for other purposes; and (4) the mitigating function of hatchery fish.<sup>91</sup>

After a decade of state defiance of federal court orders regarding Indian fishing rights, the United States Supreme Court granted certiorari in the Washington state and federal cases to resolve the character of the Indian treaty right to take fish.<sup>92</sup> In *Passenger Fishing Vessel*, the Supreme Court endorsed the 50-50 allocation previously adopted in *Sohappy v. Smith* and *Phase I*.<sup>93</sup>

The Court explicitly rejected the Washington Game Department's suggestion that treaty

---

<sup>90</sup> United States v. Washington, 759 F.2d 1353 (9th Cir. 1985).

<sup>91</sup> *Id.* at 1359.

The hatchery programs have served a mitigating function since their inception in 1859. They are designed essentially to replace natural fish lost to non-Indian degradation of the habitat and commercialization of the fishing industry. Under these circumstances, it is only just to consider such replacement as subject to treaty allocation. For the Tribes to bear the full burden of the decline caused by their non-Indian neighbors without sharing the replacement achieved through the hatcheries would be an inequity and inconsistent with the Treaty.

<sup>92</sup> *Passenger Fishing Vessel*, 443 U.S. 658, 662 (1979).

<sup>93</sup> *Id.*

fishermen be given only an "equal opportunity," to take fish with non-treaty fishermen.<sup>94</sup> The Court reasoned:

That each individual Indian would share an 'equal opportunity' with thousands of newly arrived individual settlers is totally foreign to the spirit of the negotiations. Such a 'right,' along with the \$207,500 paid the Indians, would hardly have been sufficient to compensate them for the millions of acres they ceded to the Territory.<sup>95</sup>

In rejecting the Game Department's argument, the Court relied on the principals established in six of its prior decisions which addressed the Indian treaty right to take fish. The Court found that: (1) by treaty, Indians have rights beyond those held by other citizens;<sup>96</sup> (2) state regulations of treaty fishing are only sustainable if they are necessary for conservation;<sup>97</sup> and (3) regulations must not be imposed in a discriminatory manner.<sup>98</sup>

In *Passenger Fishing Vessel*, the Court found that Indian tribes were guaranteed the right to harvest sufficient fish to ensure "a moderate living."<sup>99</sup> Moderate living needs are not

<sup>99</sup> *Id.* at 686

being met.<sup>100</sup> Since 1964, the Columbia River tribes have not had a commercial fishery on summer chinook.<sup>101</sup> Since 1975, except 1977, the tribes have not had a commercial fishery on spring chinook.<sup>102</sup> Ceremonial and subsistence fisheries are currently a fraction of the tribes' actual needs.<sup>103</sup> Such curtailment of tribal commercial, ceremonial and subsistence fisheries effectively undermines a tribe's opportunity to achieve a moderate standard of living.

In *United States v. Adair*, the Ninth Circuit stated that:

Implicit in this "moderate living" standard is the conclusion that Indian tribes are not generally entitled to the same level of exclusive use and exploitation of a natural resource that they enjoyed at the time that they entered into the treaty reserving their interest in the resource, unless, of course, no lesser level will

---

It bears repeating, however, that the 50% figure imposes a maximum but not a minimum allocation. As in *Arizona v. California* and its predecessor cases, the central principle here must be that Indian treaty rights to a natural resource that once was thoroughly and exclusively exploited by the Indians secures so much as, but no more than, is necessary to provide the Indians with a livelihood--that is to say, a moderate living.

<sup>100</sup> *United States v. Washington*, 506 F.Supp. 187, 208 (W.D.Wash. 1980).

<sup>101</sup> TECHNICAL ADVISORY COMMITTEE, 1991 ALL SPECIES REVIEW COLUMBIA RIVER MANAGEMENT PLAN 2 (May 10, 1991).

<sup>102</sup> *Id.* at 6.

<sup>103</sup> *Id.*

supply them with a moderate living.<sup>104</sup>

Few could reasonably argue that the tribal harvest presently yields a moderate living.<sup>105</sup> If a moderate standard of living can only be achieved by the "same level of exclusive use and exploitation" as at the treaty time, then *Adair* suggests that exclusive use by Indians should be permitted.

Although this reading of *Adair* appears to conflict with the 50-50 allocation standard and the "in common with" treaty language, it is nonetheless consistent with the federal government's responsibility to protect the treaty reserved right to take fish.<sup>106</sup> Arguably,

---

<sup>104</sup> United States v. *Adair*, 723 F.2d 1394, 1415 (9th Cir. 1984)(emphasis added).

<sup>105</sup> The Northwest Power Planning Council offered a conservative estimate that in the early 1800s a population of 50,000 to 62,000 Columbia Basin aboriginal peoples caught approximately 5 to 6 million fish annually, almost 97 fish per individual. COMPILATION OF INFORMATION ON SALMON AND STEELHEAD LOSSES IN THE COLUMBIA RIVER BASIN at 74. In 1990, the Yakima Nation, Umatilla Confederated Tribes, Warm Springs and Nez Perce Tribe, whose members number approximately 16,000, took only 77,000 fish, or under five fish per person. TECHNICAL ADVISORY COMMITTEE, 1991 ALL SPECIES REVIEW COLUMBIA RIVER FISH MANAGEMENT PLAN (May 10, 1991).

<sup>106</sup> *Tulee v. State of Washington*, 315 S.Ct. 682, 683 (1942).

In *United States v. Winans*, ...this Court held that, despite the phrase 'in common with citizens of the territory', [sic] Article III conferred upon the Yakimas continuing rights, beyond those which other citizens may enjoy, to fish at their 'usual and accustomed places' in the ceded area...It is our responsibility to see that the terms of the treaty are carried out, so far as possible, in accordance with the meaning they were understood to have by

because neither the government nor the tribes could have anticipated the dramatic decline in the fishery resource, strict interpretation of the "in common with" language is inappropriate. Indeed, in *Passenger Fishing Vessel*, the Court found that "neither party realized or intended that their agreement would determine whether, and if so how, a resource that had always been thought inexhaustible would be allocated between the native Indians and the incoming settlers when it later became scarce."<sup>107</sup>

Treaties must be construed as they would have been naturally understood by Indians.<sup>108</sup> There was no question at treaty time that Indians could harvest as many fish as they needed. The tribes' insistence during treaty negotiations that the treaties preserve their right to fish at usual and accustomed places is evidence of the tribes' intent to guarantee themselves and their future generations the right to harvest as many fish as they needed.<sup>109</sup>

---

the tribal representatives at the council and in a spirit which generously recognizes the full obligation of this nation to protect the interests of a dependent people.")(emphasis added)(citations omitted).

<sup>107</sup> *Passenger Fishing Vessel*, 443 U.S. 658, 669 (1979).

<sup>108</sup> *Id.* at 676.

<sup>109</sup> *Id.* at 675-76.

A treaty...is essentially a contract between two sovereign nations...it is reasonable to assume that they negotiated as equals at arm's length...When Indians are involved, this Court...has held that the United States, as the party with the presumptively superior negotiating skills and superior knowledge of the language in which the treaty is recorded, has a responsibility to avoid taking advantage of the other side. "The treaty must therefore be construed...in the sense in which [the words] would naturally be

Furthermore, tribes should not be asked to bear the burden of resource conservation when non-treaty development activities and fisheries are primarily responsible for the continuing diminishment of the fishery resource. Indian treaties must be liberally construed in favor of the Indians.<sup>110</sup> Thus, when state or federal actions threaten treaty fisheries, through environmental degradation, over-harvesting, or otherwise, those actions should be restricted before the tribal treaty harvest is reduced. The federal government is obligated under *United States v. Oregon* to protect and enhance tribal treaty fisheries. Likewise, courts have repeatedly recognized that states may assert their police power to regulate the non-treaty harvest given reasonable circumstances while regulation of treaty fisheries may occur only

---

understood by the Indians." (citations omitted).

<sup>110</sup> *Tulee v. Washington*, 315 U.S. 681, 684-85 (1942). *See also* Letter from Portland Area Director of Bureau of Indian Affairs to Merrit Tuttle of National Marine Fisheries Service (Sept. 10, 1991)(Discussing the listing of Snake River spring, summer and fall chinook.)

Because the diminishment of the tribes' treaty reserved fisheries in the Columbia Basin has occurred as a result of other land and water management actions, the Bureau of Indian Affairs urges the National Marine Fisheries Service to ensure that, in the event of a listing, the allocation of the conservation burden to protect the various salmon runs does not further deprive the tribes of their treaty rights. In other words, NMFS must look to all other factors to protect the resource before regulating treaty fisheries and address those factors proportionately to the impacts they have caused.

when indispensable to conservation purposes.<sup>111</sup>

## THE ENVIRONMENTAL STANDARD

The right to take a fair share of fish as set forth in *U.S. v. Oregon* is meaningless if there are no fish to be taken. Fish runs passing through usual and accustomed fishing sites are threatened by the Columbia River hydro-electric system and environmental degradation, including thermal pollution and sedimentation. The Columbia River tribes bargained in good faith for a substantive fishing right when they ceded millions of acres to the United States. The Supreme Court characterized the Indians' right to fish as a "right to 'take' -- rather than merely the 'opportunity' to try to catch."<sup>112</sup> The tribes reserved more than the right to "occasionally ...dip their nets into the territorial waters."<sup>113</sup>

### *Treaty Right of Access Imposes a Servitude Upon Land*

In *U.S. v. Winans*, the Court described the tribes' reserved treaty right to fish at their usual and accustomed places as a servitude upon the land.<sup>114</sup> As described in *Winans*, the

---

<sup>111</sup> *Tulee v. Washington*, 315 U.S. 681 (1942); *Maison v. Confederated Tribes of Umatilla Indian Reservation*, 314 F.2d 169 (9th Cir. 1963); *Holcomb v. Confederated Tribes of Umatilla Indian Reservation*, 382 F.2d 1013, 1014 (9th Cir. 1967).

<sup>112</sup> *Passenger Fishing Vessel*, 443 U.S. 658, 678-679 (1979).

<sup>113</sup> *Id.* at 678-679. See also, Michael C. Blumm, *Why Study Pacific Salmon Law?* 22 IDAHO LAW REVIEW 629 (1985-86).

<sup>114</sup> *United States v. Winans*, 198 U.S. 371, 381 (1905).

treaties reserved and recognized Native Americans' aboriginal "right in the land -- the right of crossing it to the river -- the right to occupy it to the extent and for the purposes mentioned."<sup>115</sup> Commentators have also suggested that treaty fishing rights impose an environmental servitude upon state and federal governments.<sup>116</sup> It is clear that in the realm of treaty fishing rights that the states, the federal government, and the tribes share the responsibility created by treaty to enhance and protect fish habitat.<sup>117</sup>

*Non-Treaty Actors Must Not Impair or Destroy Habitat*

In the *Confederated Tribes of the Umatilla Indian Reservation v. Callaway* settlement agreement,<sup>118</sup> the court ordered federal water managers not to manipulate the Federal Columbia River Power system (FCRPS) so as to inundate tribal fishing sites above the Bonneville Dam.<sup>119</sup> In addition to the threat to the tribal fishing sites, experts feared that the peaking proposal would adversely impact the migration of salmonid fish.<sup>120</sup> The court ordered the BPA and the Army Corps of Engineers to manage and operate the FCRPS's peak power

---

<sup>115</sup> *Id.*

<sup>116</sup> See e.g., Gary D. Meyers, *United States v. Washington (Phase II) Revisited: Establishing an Environmental Servitude Protecting Treaty Fishing Rights*, 67 UNIVERSITY OF OREGON L. REV. 771, 784 (1988).

<sup>117</sup> *United States v. Washington*, 520 F.2d 676, 685 (9th Cir. 1975).

<sup>119</sup> *Id.* at 6.

<sup>120</sup> *Id.*

system in a manner that did not "impair or destroy" the tribe's treaty fishing rights.<sup>121</sup>

Similarly, an Oregon federal district court enjoined the Army Corps of Engineers from constructing a dam and reservoir, despite Corps promises to mitigate the project's environmental impacts. In *Confederated Tribes of the Umatilla Indian Reservation v. Alexander*,<sup>122</sup> the court found that a proposed dam on Catherine Creek, a tributary to the Grande Ronde River in Oregon, would nullify tribal treaty fishing rights by inundating the tribes' usual and accustomed fishing stations and by preventing fish from migrating upstream.<sup>123</sup> Recognizing that only Congress can abrogate treaty rights and to do so it must act expressly,<sup>124</sup> the court found no express intent to abrogate the tribe's treaty rights.<sup>125</sup> In fact, the court noted that Congress was not even aware of the treaty fishing rights at that location when it authorized the dam's construction.<sup>126</sup>

In 1985, the Ninth Circuit affirmed a federal district court order which required water to be released from a dam in order to protect sixty spring chinook salmon redds from

<sup>126</sup> *Id.*

destruction.<sup>127</sup> In *Kittitas Reclamation District*, the Ninth Circuit held that it was not an abuse of discretion for the district court to consider the Yakima Nation's treaty fishing rights in its interpretation of a consent decree regarding water rights to which the tribe was not a party.<sup>128</sup>

The tribe's treaty fishing rights would have been violated unless the Department of Interior's Bureau of Reclamation released water from three of its irrigation dams. *Kittitas* makes clear that the water and hydro-power managers are under an obligation to provide sufficient instream flows to protect treaty fisheries. Thus, reducing instream flows below the level necessary to preserve spawning grounds is inconsistent with the tribes' established treaty rights.

The issue of whether treaty fishing rights create an environmental right arose again, in *Muckleshoot Indian Tribe v. Hall*.<sup>129</sup> Pending trial on the merits, the Muckleshoot and Suquamish Indian Tribes sought a preliminary injunction to enjoin the construction of a marina which threatened usual and accustomed fishing sites in Elliott Bay Small Craft Harbor.<sup>130</sup> The tribes claimed that the Corps of Engineers had failed to adequately evaluate and mitigate the project's cumulative impacts on their treaty fishing rights.<sup>131</sup> However, District Court Judge Zilly found that it was unnecessary to decide the environmental issue.<sup>132</sup> Judge Zilly enjoined the

construction of the marina finding it dispositive that the marina would substantially impair and limit tribal access to usual and accustomed treaty fishing sites.<sup>133</sup>

## CONCLUSION

Tribal fishing rights are as valuable to the Columbia River treaty tribes as the air they breathe. In the Columbia River Treaties, the tribes reserved to themselves a right they have practiced since time immemorial: the right to fish at all usual and accustomed fishing sites regardless of where these sites are located. This right is vital to Columbia River tribes' subsistence, culture, religion and economy.

The United States stands in a trust relationship to the Columbia River treaty tribes. All federal actions, by all federal agencies, affecting Indian people must be judged by the most exacting fiduciary standards. The trust responsibility imposes an affirmative duty on all federal agencies to protect tribal resources. Canons of construction unique to Federal Indian law are an example of the trust relationship. These canons require treaties to be interpreted as the Indians would have understood them and any ambiguous expressions are to be liberally construed in favor of the Indians.

The right to fish is meaningless if all or most of the fish are killed by the hydro-electric system and environmental degradation before they return to tribal fishing grounds. The Stevens treaties off-reservation fishing rights are the principal component of the Columbia River tribes' treaties. These rights were expressly reserved to allow the tribes to preserve their traditional way of life, which is centered around the river and its resources. These rights are to be respected by the States and by the United States government. In *Winans* the Supreme Court

established the reserved rights doctrine; a treaty is not a grant of rights to the Indians, instead it is a reservation of those rights not granted away. Pursuant to the Constitution, treaties with the tribes are the supreme law of the land.

State and federal government regulation of treaty fishing is permissible only when the government shows that the regulation is reasonable and necessary for conservation. Before regulating treaty fishing the government must first demonstrate that adequate conservation cannot be achieved by regulating non-Indian activities. Treaty rights may not be restricted in a manner which discriminates against Indians. The courts have clarified that tribal fishermen have an absolute right to a fair share of the fish produced by the Columbia River system. In *Passenger Fishing Vessel* the Supreme Court made clear that treaty fishermen were entitled to more than an equal opportunity to take fish with non-treaty fishermen and upheld lower court determinations that a fair share was up to fifty percent of the fishery resource. The Court found that the Indian tribes are entitled to harvest sufficient fish to insure "a moderate living," up to the fifty percent ceiling. Currently, the Columbia River fisheries are providing the tribes with far less salmon than is necessary to meet the moderate living standard. This deficiency is preventing ceremonial and subsistence fishing, as well as commercial fishing.

Since both the government and the tribes assumed the fishery resource was inexhaustible, and because treaties are to be liberally interpreted in favor of the tribes, a strong argument can be made that fisheries should be reserved for the exclusive use of the Indians when exclusive use is necessary to insure a "moderate living." It is inequitable for the federal government to require the tribes to bear the burden of resource conservation when non-treaty development activities are the principle cause of the decline of the fishery resource. This view is consistent with federal trust obligations which require the federal government to

protect and enhance treaty fisheries. The tribes ceded millions of acres of land to the federal government. In exchange for this land the tribes received an express guarantee that they would maintain the exclusive right to take fish on their reservations, as well as the right to take fish at their usual and accustomed places off the reservation. The tribes believed that there would always be fish to take. By guaranteeing themselves the right to take fish, the tribes thought that they were protecting their livelihood and their culture. It was inconceivable to Indians in the mid 1800s that settlers could exploit the Columbia River ecosystem in such a way that there would not be enough salmon in the future to satisfy both Indian and non-Indian needs. The Columbia River tribes' treaty fishing rights mean more than the right to hang a net in an empty river.
