I. INTRODUCTION

This compact is entered into pursuant to House Bill 2000, Chapter 207, Laws of 2015 (the “Compacting legislation”). This document will be cited as the “Marijuana Compact Between The Tulalip Tribes of Washington and the State of Washington, hereinafter referred to as the “Compact.”

II. PARTIES

The Parties to this Compact are The Tulalip Tribes of Washington (“Tribe”) and the State of Washington (“State”) (collectively, “Parties”).

The Tribe is located on the Tulalip Reservation, which is in the state of Washington, and the Tribe is a federally-recognized sovereign Indian tribal government. The Tribe’s governing body, the Tulalip Board of Directors, has authority to enter into this compact pursuant to Article VI, Section 1.A of the Tulalip Constitution.

The State of Washington is a state within the United States of America, possessed of the full powers of a state government. The Washington State Liquor and Cannabis Board (“Board”) is an executive department of the State government with statutory authority with respect of marijuana under chapters 69.50 and 69.51A RCW. The Compacting legislation allows the Governor to enter into an agreement with any federally recognized Indian tribe located within the geographical boundaries of the State regarding marijuana and to delegate the power to negotiate such agreement to the Board.

III. PURPOSE AND INTENT

Historically, the production, possession, delivery, distribution and sale of marijuana have been illegal across the United States and in Indian Country. In 2012, Washington voters passed Initiative 502 (“I-502”) which sets forth a tightly regulated, state-licensed system allowing for the production, processing, and retail sale of marijuana, marijuana concentrates, useable marijuana, and marijuana-infused products for recreational purposes within the State of Washington.

While the federal Controlled Substances Act continues to designate marijuana as a Schedule 1 substance, the United States Department of Justice on August 29, 2013, issued a memorandum to all United States Attorneys setting forth guidance regarding marijuana enforcement. In that memo, James M. Cole, Deputy Attorney General, set forth eight enforcement priorities of particular importance to the federal government, including: preventing the distribution of marijuana to minors; preventing revenue from the sale of marijuana from going to criminal enterprises, gangs, and cartels; preventing the diversion of marijuana from states where it is legal under state law in some form to other states; preventing state-authorized marijuana activity from being used as a cover or pretext for the trafficking of other illegal drugs or other illegal activity; preventing violence and the use of firearms in the cultivation and distribution of marijuana; preventing drugged driving and the exacerbation of other adverse public health consequences associated with marijuana use; preventing the growing of marijuana on public lands and the attendant public safety and environmental dangers posed by marijuana production on public lands; and preventing marijuana possession or use on federal property. The memo further states that the focus of federal law enforcement resources and efforts will be on those whose conduct interferes with the stated priorities and that state and local governments should provide sufficiently robust regulatory and enforcement systems to protect against these harms.

On October 28, 2014, the United States Department of Justice issued another memorandum to all United States Attorneys providing a policy statement regarding marijuana issues in Indian Country. In that memo, Monty Wilkinson, Director, Executive Office for United States Attorneys, acknowledged that “the eight priorities in the Cole Memorandum will guide United States Attorneys’ marijuana enforcement efforts in Indian Country, including in the event that sovereign Indian Nations seek to legalize the cultivation or use of marijuana in Indian Country.” That memo effectively treats tribal governments the same as state governments in the decision to legalize marijuana.

Through State law and the Board’s implementing rules, the State has legalized possession of limited amounts of marijuana and the production, processing, and sale of marijuana by licensed businesses and has set forth a civil regulatory system that accomplishes the federal priorities set forth above and keeps marijuana production, processing, and sale in the State regulated and safe for the public.

After serious deliberation, the Tribe, as a sovereign nation, has also determined that present day circumstances make a complete ban of marijuana within Indian Country ineffective and unrealistic and has decriminalized its sale and possession in certain circumstances. At the same time, consistent with the federal priorities, the need still exists for strict regulation and control over the production, possession, delivery, distribution, sale, and use of marijuana in Indian Country.

The State and the Tribe have recognized the need for cooperation and collaboration with regard to marijuana in Indian Country. The State has authorized the entry of this Compact by the Compacting legislation, enacted by the 2015 Regular Session of the Legislature on April 24, 2015, signed by the Governor on May 8, 2015, and effective on July 24, 2015. Laws of 2015, Chapter 207. Through Section 2 of this legislation, codified at RCW 43.06.490, the State authorized the Governor to enter Compacts concerning the regulation of marijuana and to delegate the authority to negotiate the Compacts to the Board.

The Parties share a strong interest in ensuring that marijuana production, processing, and sales in Indian Country are well-regulated to protect public safety and community interests. The Parties acknowledge that pursuant to federal law, 21 U.S.C. § 812, marijuana is a Schedule I controlled substance and that this Compact does not protect the sales or regulation of marijuana in Indian Country from federal law; however, the Parties have entered into this Compact in order to strengthen their ability to meet these mutual interests and to provide a framework for cooperation to ensure a robust tribal and state regulatory and enforcement system sufficient to meet the federal priorities.

The Parties agree that it is in the best interests of the Tribe and the State that they further implement the government-to-government relationship between them, as recognized in the Centennial Accord of August 4, 1989, by entering into a compact to protect public health and safety, ensure a lawful and well-regulated marijuana market, encourage economic development in Indian Country, and provide fiscal benefits to both the Tribe and the State including development of medical marijuana.

The Parties anticipate that they will later amend this Compact to add other elements of the broader subject area of marijuana to the agreement, in order to ensure a lawful and well-regulated marijuana market, encourage economic

development in Indian Country, and provide fiscal benefits to both the Tribe and the State.

X. TAXATION AND RECORD-KEEPING

The Parties recognize that RCW 43.06.490(2)(a) provides that “Each marijuana agreement adopted under this section must provide for a tribal marijuana tax that is at least one hundred percent of the state marijuana excise tax imposed under RCW 69.50.535 and state and local sales and use taxes on sales of marijuana.” The Parties further recognize that Sections 3, 4, and 5 of the Compacting legislation, codified at RCW 69.50.555, 82.08.9997, and 82.12.9998, provide exemptions from certain state taxes under the circumstances described in those sections.

The Tribe shall impose and maintain a Tribal Tax that is equal to at least 100 percent of the State Tax on all sales of marijuana products in Indian country, except that, consistent with RCW 43.06.490(2), the tribe may allow an exemption from tax for sales to the Tribe, Tribal Enterprise, Tribal Member Business, or an enrolled member of the Tribe [,] on marijuana grown, produced, or processed within Indian Country, or for transactions otherwise exempt from state marijuana taxation under state or federal law. Medical marijuana products used in the course of medical treatment by a clinic, hospital, or similar facility owned and operated by the Tribe within Indian Country are exempted from tax. The Tribe may choose to levy a Tribal Tax on any transaction that may otherwise be exempt.

- C. At the State’s request, the Tribe will retain, at its own expense, an Auditor to test the Tribe’s compliance with this Taxation and Record-Keeping Section of the

A. The Tribe shall address safety and enforcement issues in accordance with the Tribal Code, this Compact, and internal policies and controls of the Tribe or Tribal Enterprise. - a. Premise Checks by the Tribe. The Tribal Police or other authorized agency may conduct its own premises checks in Indian Country to observe compliance with Tribal Code and this Compact and to provide support and education to Tribal Enterprises and staff. To the extent it is informed of the results of such premises checks, the Tribe will share the results of the premises checks with the Board.
- b. Premise Checks by the Board. The Board, through its staff, may also conduct premises checks. Prior to conducting any such check, the Board will contact the Tribal Police to provide reasonable notice of such premises check. Except as provided in the Cooperation Section below, the Tribal Police may observe and participate in all premises checks. The Board will share the results of such premises checks with the Tribe.
- c. Cooperation. Both Parties will cooperate in good faith to undertake all Board requested checks jointly. The Tribal Police will make reasonable efforts to arrange and conduct all Board requested premises checks within 24 hours of being provided written notice of such request by the Board. All such written notice shall be sent to the Chief of the Tribal Police and the Chairman of the Tribe. However, if the Tribal Police are

unable or unwilling to arrange and conduct such requested premises checks 48 hours after receiving the original written notice, the Board may then perform the premises check on its own without the Tribal Police. Should either Party have any concerns arising out of a premises check or the results thereof, the Parties will meet in good faith to discuss any suggested changes to protocols for the premises checks themselves or for marijuana sales by the Tribe or Tribal Enterprise that were checked.

2. Compliance Checks - Minors

- a. Compliance Checks by the Tribe. The Tribe may conduct its own compliance checks in Indian Country using minors ages 18, 19, or 20 through the Tribal Police or other authorized agency in accordance with Tribal regulations and policies. To the extent it is informed of the results of such checks, the Tribe will provide the results of the checks to the Board. No criminal action may be taken against any minor who purchases marijuana as part of such a compliance check.
- b. Compliance Checks by the Board. Board staff may also conduct compliance checks using minors ages 18, 19, or 20. Prior to conducting any such check, the Board will contact the Tribal Police to provide reasonable notice of such compliance check. Except as provided in the Cooperation Section below, the Tribal Police may observe and participate in all compliance checks. The Board will share the results of such compliance checks with the Tribe. No criminal action may be taken against any minor who purchases marijuana as part of such a compliance check.
- c. Cooperation. Both Parties will cooperate in good faith to undertake all Board requested checks jointly. The Tribal Police will make reasonable efforts to arrange and conduct all Board requested compliance checks within 24 hours of being provided written notice of such request by the Board. All such written notices shall be sent to the Chief of Police and the Chairman of the Tribe. However, if the Tribal Police are unable or unwilling to arrange and conduct such requested compliance check 48 hours after receiving the original written notice, the Board may then

perform the compliance check on its own without the Tribal Police. Should either Party have any concerns arising out of a compliance check or the results thereof, the Parties will meet in good faith to discuss any suggested changes to protocols for the compliance checks themselves or for marijuana sales by the Tribe or Tribal Enterprise that were checked.

3. Transportation Outside Indian Country. Transportation of marijuana products outside the boundaries of Indian Country shall be conducted in compliance with state law and Board rules.

XII. DISPUTE RESOLUTION

- A. Process Required. Neither Party, nor any officer or official acting on behalf of a Party, may petition any court to enforce this Compact unless it is to ensure that: (a) the dispute resolution process described in this Dispute Resolution Section has been followed in good faith; or (b) the other Party enters into dispute resolution pursuant to this section. Should a dispute arise between the Parties regarding compliance with this Compact by either Party, the Parties will attempt to resolve the dispute through the following dispute resolution process:
 1. Notice. Either Party may invoke the dispute resolution process by notifying the other, in writing, of its intent to do so. The notice must set out the issues in dispute and the notifying Party's position on each issue.
 2. Meet and Confer. The first stage of the process will include a face-to-face meeting between representatives of the two Parties to attempt to resolve the dispute by negotiation. The meeting must be convened within thirty (30) days after the receiving Party's receipt of the written notice described in the sub-section XII.A.1. above. The representatives of each Party will come to the meeting with authority to settle the dispute. If the dispute is resolved, the resolution will be memorialized in a writing signed by the Parties.
 3. Mediation. The second stage of the process will be that if the Parties are unable to resolve the dispute within sixty (60) days after receipt of the

initial written notice, the Parties will engage the services of a mutually agreed-upon qualified mediator to assist them in attempting to negotiate the dispute. Costs for the mediator will be divided equally by the Parties. The Parties will pursue the mediation process in good faith until the dispute is resolved or until ninety (90) days after the date of the mediation demand, whichever occurs first. The Parties may continue mediation after the ninety (90) day period by mutual agreement. If the Parties cannot agree on a format for the mediation process, the format will be determined by the mediator. If the dispute is resolved, the resolution will be memorialized in a writing signed by the Parties, which will bind the Parties.

4. Procedure if the Dispute Remains Unresolved. Either Party may terminate this Compact upon thirty (30) days' written notice sent to the persons listed in the Section XIII Communication and Notice, subsection Designated Contacts after whichever of the following occurs first: (i) completion of the process described in the Dispute Resolution, Process Required Section above; or, (ii) one hundred eighty (180) days after the written notice described in Dispute Resolution, Notice Section above.

- B. Defense of This Compact. - A. Term. This Compact shall remain in effect for a term of one (1) year unless the Parties mutually agree in writing that the Compact should be vacated or terminated and superseded by a new compact between the Parties within that time frame, or unless the Compact is terminated pursuant to the Dispute Resolution, Procedure if the Dispute Remains Unresolved Section above. - B. Amendment. No amendment or alteration of this Compact shall arise by implication or course of conduct. This Compact may be altered only by a subsequent written document, approved by the Parties, expressly stating the Parties' intention to amend this Compact.
- C. Severability. If any provision of this Compact or its application to any person or circumstance is held invalid, the remainder of the Compact shall not be affected.

A "most favored nation" provision is defined as language by which the State agrees to accord a tribe or tribal government agency the same favorable terms that are offered in other agreements with any other tribe or tribal government agency. This will not be construed to require that the State offer the Tribe the option to receive the same terms offered to every tribe or tribal government agency, in the absence of a most favored nation provision in the Compact.
- F. State Tax Treatment under other Tribal Compacts with other Tribes in Washington. The parties recognize that terms regarding taxation may fall within the scope of this paragraph. However, notwithstanding any other provision in

15.40.010 – Purpose.

This chapter is hereby adopted for the purpose of regulating the producing, manufacturing, processing, packaging, delivering, distributing, or selling, or possessing of marijuana in Tulalip Tribes' Indian Country (as that term is defined in 15.40.040 herein). Marijuana and all related products will be cultivated, produced, processed and sold only by the Tulalip Tribal government. The marijuana operations will be wholly owned and operated solely by the Tulalip Tribes. The revenue generated from marijuana sales will be used to enhance Tribal education, health care, social services, research, and substance abuse prevention. This chapter does not authorize private operation of marijuana cultivation, production, processing or sales businesses. Recreational and medical marijuana use or possession in accordance with this Chapter will not be treated as a crime.

This Chapter is designed to address the eight enforcement priorities of particular importance to the federal government included in the memorandum issued by the United States Department of Justice on August 29, 2013, to all United States Attorneys setting forth guidance regarding marijuana enforcement. On October 28, 2014, the United States Department of Justice issued another memorandum to all United States Attorneys providing a policy statement regarding marijuana issues in Indian Country which acknowledged that “the eight priorities in the Cole Memorandum will guide United States Attorneys’ marijuana enforcement efforts in Indian Country...”.

Those eight enforcement priorities set forth include: (i) preventing the distribution of marijuana to minors; (ii) preventing revenue from the sale of marijuana from going to criminal enterprises, gangs, and cartels; (iii) preventing the diversion of marijuana from states where it is legal under state law in some form to other states; (iv) preventing state-authorized marijuana activity from being used as a cover or pretext for the trafficking of other illegal drugs or other illegal activity; (v) preventing violence and the use of firearms in the cultivation and distribution of marijuana; (vi) preventing drugged driving and the exacerbation of other adverse public health consequences associated with marijuana use; (vii) preventing the growing of marijuana on public lands and the attendant public safety and environmental dangers posed by marijuana production on public lands; and (viii) preventing marijuana possession or use on federal property.

This Tribal Government Cannabis Code is to designed to provide a sufficiently robust regulatory and enforcement systems to protect against those harms stated above. (Res. No. 2017-___)
