

Additionally, the Guardian should:

- Coordinate efforts with the Social Worker at ESH to facilitate and support AIP's move to and settling in at his new residence and should determine house rules and regulations for AIP at the new residence and ensure that such are met.
- Have access to AIP's Mountain West Bank account for the purpose of closing that account and opening a Blocked Guardianship Money Market Account in the name of AIP. The Guardian shall maintain \$2,000 in an unblocked Guardianship Account for incidental expenses for AIP.
- Contact AIP's son to facilitate resumption of their relationship once AIP has moved and is settled at his new residence.
- Determine if AIP has assets, other than his monthly Social Security monthly payments, currently being directly deposited into his Mountain West bank account. If there are no other assets, then once the balance of AIP's bank account(s) is depleted due to the payment of AIP's monthly room and board and other ongoing expenses, determine whether appointment of a representative payee for the Social Security benefit is appropriate and in AIP's best interests. If a representative payee is appointed, then the Guardian should determine whether dismissal of the guardianship of the estate is appropriate.
- Support and facilitate AIP's exercise of his voting rights in the upcoming 2020 elections. If AIP is unable to exercise those rights, then determine whether AIP should lose the right to vote.
- Determine whether speech, physical or other therapies would be appropriate for AIP and in his best interests.
